We are excited to be teaming up with community leaders, school districts, and local businesses throughout the Rio Grande Valley and South Texas to help save lives during this Covid Pandemic.

We do this by providing Free Covid Testing and Free Monoclonal Antibody Infusions.

Under the new FDA qualifications, you may qualify for a Monoclonal Antibody Infusion if you are older than 12, tested positive for COVID-19, or are at risk of being exposed to COVID-19.

This new prophylactic approach allows us to be proactive in helping to prevent the spread of the COVID-19, as well as reduce the symptoms for those who have tested positive.

Dr. Joe Ybarra's goal is to keep our communities out of the hospitals and healthy.

The timing is now, and we are available and eager to work together please contact us at your earliest convenience. We look forward to hearing from you soon and helping save lives together.

“Monoclonal antibodies for COVID-19 may block the virus that causes COVID-19 from attaching to human cells, making it more difficult for the virus to reproduce and cause harm. Monoclonal antibodies may also neutralize a virus.”
